

New Student Registration – Manteo Middle School

Welcome to Manteo Middle School. My name is Debbie Dutton, RN, BSN and I am the school health nurse at your child's school. I am generally available to the students Monday through Friday 7:30a to 3:30p. You can contact me at 473-5549 extension 1207. If I am with a student or out of the office, feel free to leave a voicemail and I will contact you as soon as I am able.

So that I can be the best nurse possible for your child, I ask that you please complete a "Medical History Update" form. This will make me aware of any condition(s) that your child has and help me to be proactive in caring for your child's needs. Please be aware that there is information needed on the back of the form as well.

If your child requires medication administration during the day, either prescription or over the counter, a "Medication Consent Form" needs to be completed by you and the physician. This form gives school personnel and me permission to administer medications to your child. I ask that a parent or guardian bring the medication into the school nurse office rather than sending with your child. All medications must be in the original packaging or prescription bottle.

I hope that your child has a safe and healthy school year here at Manteo Middle School. Again, please feel free to call if you have any questions.

Sincerely,

Debbie Dutton, RN, BSN, NCSN
